RE: *Received questions concerning the procedure for granting a concession for service for the object “Civil airport for public use Sofia”*

DEAR SIR/MADAM,

In connection with received question concerning the procedure for granting a concession for service for the object “Civil airport for public use Sofia”, we inform you as follows:

Question:

Are the "technical analysis" (subject of request for proposal ID 9041381) and "the financial and economic analysis" (subject of request for proposal ID 9041386) prepared by "Топик сервис" available to the interested persons?

Answer:

The preparation and adoption of concession analyses is part of the preparatory activities for concession granting, as their aim is to justify the legality and appropriateness of the concession granting.

According to Art.7 of the Regulation for Implementation of the Law on Concessions, bodies, officials, consultants and experts are not allowed to disclose information regarding their activities on concessions, as well as on the content of the collected documentation, except in cases specified by the Law on Access to Public Information and this Regulation.

The conclusions and recommendations of the adopted concession analyzes (legal, financial, economic, technical and environmental analysis), justifying the appropriateness and legality of the concession granting, are contained in the documentation for participation, the resolution for opening of a procedure for concession granting, the announcement of the procedure and the draft concession agreement, which can be found on the website of MTITC: <https://www.mtitc.government.bg/page.php?category=755&id=9140>.
